Come to a National Meeting in Atlanta on Feb 7 & 8
Take the Resistance to POLICE MURDER to a Higher Level!

If you took to the streets in outrage after police murdered Eric Garner, Michael Brown, John Crawford, Ezell Ford, Tamir Rice, Mayra Cornejo, Akai Gurley, and so many others in the past few months alone...

- If you live in the communities targeted by brutal, murdering police, or are a young person, or a student, or someone who believes in justice...
- If you are in an organization, new or old, or a faith-based group, or not in any organization at all...
- If you stood up in the fall or winter against police murder, or if you felt you should have stood up...or if you are just someone who feels that all this is INTOLERABLE...
- If you want to see what began this summer and fall go to a higher level...
- If you are determined to make this STOP...

Then YOU are Invited!

The Stop Mass Incarceration Network (SMIN) invites you to participate in a meeting to map out plans to build on the powerful, beautiful and very necessary outpourings of people all across the country calling for an end to the system putting its stamp of approval on police murdering people.

This meeting will be held in Atlanta on Feb 7 & 8 at the Interdenominational Theological Center at Atlanta University.

If 1000's of people across the country hadn't stood up and said NO MORE in response to the grand juries refusing to indict the cops who killed Michael Brown and Eric Garner, those murders would've been swept under the rug. But because we stood up, millions of people were challenged to look at how police kill people all the damn time and how the system never punishes cops for their murderous acts.

The authorities have worked desperately to recapture the offensive from the movement of resistance. They have arrested 100's of protesters and tried to demonize the protests. They seized on the killings of 2 police officers in Brooklyn on December 20 to call for the protests to stop. We must not back down in the face of their offensive. The police haven't stopped killing people, and the system hasn't stopped giving killer cops a pass. So we must continue to take to the streets and call for these horrors to end. People have been doing this. But we must take our resistance to a higher level.

To that end, SMIN has issued a draft Call for a Shutdown Day on April 14, a day of massive resistance all over the country, with students at 1000's of school going on strike, taking over buildings and more; and people gathering in cities nationwide to disrupt America's business as usual. And SMIN is developing a plan of resistance to build up to April 14.

If you want to see the horror of police wantonly murdering people STOPPED and are ready to get down to serious work to STOP it, come to this planning meeting in Atlanta. Be part of enriching and further developing the plans for the Shutdown day in April. And be part of developing a plan for resistance that builds up momentum to a powerful day of resistance in April.

The authorities have declared that the normal routine of this society will continue to include wanton police murder of Black and Latino people. This normal routine must be disrupted. Come to the national meeting in Atlanta on February 7 & 8, & be part of planning out how to do that!
